

## **Origins**

The app “SOS homini” is an innovation created and tested by “Homini” Association from Międzychód, Incubator of Social Innovations of Wielkopolska Region, as a part of a project “A recipe for social innovation in Wielkopolska Region - nursing services for dependent individuals”.

The leader of the project was Regional Center of Social Politics in Poznań (RCSPP) in cooperation with city of Poznań and the Center of Supercomputers and Networks in Poznań. RCSPP is still very active in promotion and support of introduction of this innovation. More information at: <https://www.inkubatorwins.pl/>.
